New software version release announcement
May 19, 2010

BETA CAE Systems S.A. announces the release of ANSA v13.0.5
with important code corrections

The official software release is comprised by the latest files that reside in the server at the time of this announcement.
These replace any pre-releases and files downloaded prior to May 19, 2010.

Numerous known issues resolved

- **Open files:** extreme delay in reading of ansa or cad files
- **Saving Quality Criteria files:** improper writing of quality criteria files or defaults settings saved by v13.0.4
- **JT translation** on Windows platforms
- **Output:** Wave Front
- **GUI Settings on Windows:** loading of existing settings of older version failed
- **Selections:** "select nodes of elements" on Edges selection
- **DB browser:** Modify errors using 'expressions'
- **Batch Mesh** improvements
- **LS-DYNA:** importing/exporting issues related to *INCLUDE_TRANSFORM
- **ABAQUS:** importing error of *HYPERFOAM
- **CFD:** interior faces orientation lost in Output (Star CCM, CFX, OpenFoam)

... and many more.

For details…
For details about the resolved issues, please refer to the "**ANSA v13.0.5 Release Notes**" pdf document, that can be downloaded separately and that is also accessible through the *Help>ANSA documentation index* menu bar option within ANSA.

Compatibility

ANSA files saved by v13.0.5 can be opened by v13.0.4 and v13.0.3 but cannot be opened by earlier software releases.

Download

Our customers who are served directly by our head offices may download the new software, examples and documentation from their account in our download server.
You may access your account through the user login link at our web site http://www.beta-cae.gr
Contact us if you miss your account details.
The [Public] link will give you access to the public downloads area.
Our customers who are served by one of our business agents may get the software from the respective distribution channel.
