

6th BETA CAE INTERNATIONAL CONFERENCE

10-12 JUNE 2015, THE MET HOTEL
THESSALONIKI, GREECE

INVITATION

INVITATION

Already a landmark event in the calendar of CAE professionals, our International conference celebrates this summer its 10th year. Being grateful to the contributors, the participants, and the CAE community that embraced the event, we are, once again, delighted to invite you to the **BETA CAE 6th International Conference** which will be held from **June 10th to June 12th 2015, at the MET Hotel, Thessaloniki, Greece.**

Every two years our Event brings the CAE Community together and promotes an international exchange of the latest concepts, knowledge, and development requirements on our software products. During the event, technical papers outlining the latest advances in CAE Strategy, methodology, techniques and applications related to our products are presented, offering a unique opportunity for the participants to be informed about the latest software trends, new concepts and achievements, and new development requirements. The closer technical communication with the software developers' team of our products, within the framework of a technical forum, features this three-day conference.

Further discussions, sessions, meetings and events will allow the interaction between participants and organizers. Senior executives of our company, the engineers from the development and services teams and our business agents from around the world will be glad to meet with customers and users, to discuss the applications, the existing functionality, latest enhancements and future development plans of our software products. We expect that this will be a unique opportunity for you to share your success and for us to share our vision.

The attire of the event is business casual.

The language of the event is English.

There is no participation fee.

WHO SHOULD ATTEND

The conference will be of interest to decision makers, strategy & methodology planners, simulation experts, applications users and researchers at the forefront of the CAE simulation for various disciplines, coming from OEMs and suppliers from a wide spectrum of industrial sectors, especially from, yet not limited to the:

- automotive,
- motorsports,
- railway vehicles,
- aerospace,
- shipbuilding / offshore,
- power tools,
- defence,
- energy,
- heavy machinery,
- biomechanics,
- chemical processes,
- electronics, etc.

All those who wish to communicate recent advances and future trends in the analyses technologies, methods and practices for solving the problems of the modern Industry, using our software products, are welcome to make the conference a success. Please, refer to the Call for Papers for details on papers contribution.

BENEFITS OF ATTENDING

During the event you will have the opportunity to:

- Meet, exchange ideas, and collaborate with CAE experts from around the world.
- Present your success stories and innovative ideas and discuss them within a unique global forum.
- Keep up-to-date on the latest advancements in the field of CAE simulation with state-of-the-art software solutions.
- Interact with our software development teams and promote your requests to influence future software development.
- Enhance your relations with the technical support & services teams engineers of BETA CAE Systems and with its representatives of the worldwide sale & support network.
- Learn more about our co-operations with leading hardware and software companies.

THE TOPICS

The technical forum and contributed presentations will demonstrate the current status and the future trends of the application of the products of BETA CAE Systems, **ANSA / μETA suite and SPDRM**, in a spectrum of sectors. A wide range of topics on various simulation application fields and disciplines will be covered, including:

- CAE strategy & process planning,
- Process automation,
- Product and Simulation Data Management (PDM / SDM),
- Durability,
- Crash & Rollover,
- Occupant & Pedestrian Safety,
- Dynamics,
- Noise, Vibration & Harshness,
- Computational Fluid Dynamics,
- Optimization,
- Composite materials modelling,
- Climate control,
- Engine technology,
- Heat transfer,
- Simulation results assessment etc.

REGISTER AS
DELEGATE

In order to keep a low overall budget for all the participants, there is **no participation fee**. Furthermore, registration is essential for the organization of the event and the accommodation arrangements.

Free delegates' registration includes:

- delegate pack and full conference attendance,
