Updated software downloads release announcement
February 9, 2010

BETA CAE Systems S.A. announces the availability of
updated software downloads for ANSA v13.0.3
with important code corrections

The following updates apply on the ANSA v13.0.3 downloads that were available on December 20, 2009. Those who had not yet downloaded the software since then may download now the complete package.

Known issue resolved: xml files reading on Windows 32

In detail:
ANSA v13.0.3 demonstrated issues while reading in files in xml format. In order to resolve this issue, a new library has to be downloaded.

For Windows 32bit, download:
ANSA_v13.0.3/ms_windows/win32/ansa_libxml2_win32.zip
After unpacking the above compressed file right outside the root installation folder of ansa_v13.0.3, a new library will be placed in the folder ansa_v13.0.3\lib\win32
Those who had not downloaded the complete installation of ANSA v13.0.3 yet, will get the updated library with the download of the complete file
ANSA_v13.0.3/ms_windows/win32/ansa_v13.0.3_win32.zip

Known issue resolved: options of Unified CAD data translators

In detail:
The "-matvec" option CATIA files translation with the new Unified CAD translators released with ANSA v13.0.3 was not performing. This issue is resolved.
The "-read_attr" option of new Unified CAD translators released with ANSA v13.0.3 was not operating consistently. With the latest code corrections, the new translators will extract by default the attributes of Parts and Properties. While the option is applied, attributes of entities will also be extracted.
