

neere

Everyone, Anywhere, Anytime

neere

ENOUGH
WITH DISTANCE

Make distance an issue of the past

NEERE is an on-premises, web-based tele-collaboration environment, tailor-made for the engineering community.

It enables remote work and teamwork, and boosts productivity through the direct engagement of users from all over the globe, in a secure, enterprise-ready, multi-OS web-platform.

Integrated with ANSA, META, and META VR, NEERE provides a complete communication hub that makes sharing of knowledge and exchange of ideas effortless. Work-from-Home becomes efficient and teams of interdisciplinary members can now work together in real-time technical meetings, fostering innovation and reducing virtual product development cycles, fostering innovation and reducing virtual product development cycles.

Achieve:

- Work-from-Home: access your corporate workstation and work remotely.
- Intercontinental collaboration in virtual rooms.
- Real time voice, text and video communication.
- Engineering simulation applications and desktop sharing.
- Remote access to BETA applications running on servers.
- Full support of BETA's Virtual Reality (VR) environment.

Why NEERE:

- Fully encrypted collaboration.
- No data transmission outside your network.
- Enterprise ready solution.
- Easy setup, low system and maintenance requirements.
- Minimal bandwidth usage.
- Client-oriented software feature implementation and continuous software enhancement.
- High-quality after-sales service and technical support.
