

ANSA & μ ETA International Congress, 2005 **One more success story**

The **ANSA** & **μ ETA** International Congress was held in June 2-3, 2005 at Halkidiki, Greece with great success. Technical papers of major interest were presented, demonstrating the wide range of application areas of **ANSA** & **μ ETA** in contemporary CAE.

The participants had the chance to interact with the executive, development and service engineers of **BETA CAE Systems S.A.** and shared of their common problems in current CAE processes and their visions for future developments.

More than 150 participants from 40 companies, organizations and institutions, from 15 countries, were the active members of the **ANSA** & **μ ETA** International Congress.

The warm and friendly environment of the venue also contributed to the creation of an conducive atmosphere during the congress and its social events.

BETA CAE Systems S.A. thanks all those who participated and is looking forward to having the chance to host its guests again soon.
