

2nd ANSA & μETA International Congress, 2007

Press release

The biannual event of the leading force in CAE pre- & post- processing software development, BETA CAE Systems S.A., is already a tradition. The 2nd ANSA & μETA International Congress took place in Halkidiki, Greece, on the 14th and 15th of June 2007.

Our ultimate aim of getting together the CAE Community is coming true. The 29 technical papers of major interest that were presented were a showcase of the state of the art applications of ANSA & μETA products. These presentations talking about the application and the existing functionality of our software, the presented latest enhancements and future developments, along with the opportunity given to the participants to interact with our engineers, were the guaranty of the events success.

More than 200 guests from companies, organizations and institutes from all around the world were the vibrant members of the 2nd ANSA & μETA International Congress. With their eager spirit contributed the most for the success of the event.

Enhancer of the community and mood spirit was the Olympic Convention Hall of Meliton Beach Hotel in addition to the venue's setting itself. The high standard service level, the carefully selected meals along with the wonderful sunny days, made the participants' stay more friendly and relaxed.

BETA CAE Systems S.A. would like to thank all those who participated and is looking forward to hosting its guests in the next ANSA & μETA International Congress, in year 2009.
