

**KEYNOTE SPEECH:
CAE CONTRIBUTION TO VEHICLE DEVELOPMENT IN NISSAN**

Toshihiro Araki

NISSAN Motor Company, Japan

Mr. Toshihiro Araki is General Manager of the Integrated CAE Department of the Vehicle Component Technology Development Division of Nissan Motor Company, Japan.

This presentation deals with the terms of "CAE value" and "CAE technology development way" as these are treated within a high-technology CAE environment. It is shown how "CAE value" is evaluated by several indices based on vehicle development cost and performance achievement. "CAE technology development way" is explained on the basis of R&D technology strategy.
