

# 4<sup>th</sup> ANSA & $\mu$ ETA INTERNATIONAL CONFERENCE

June 1-3, 2011, Makedonia Palace, Thessaloniki, Greece

## INVITATION

## Event Outline

Being consistent to our biannual appointment, it is our pleasure to invite you to attend the "4th ANSA & μETA International Conference" that will be held from **June 1<sup>st</sup> to June 3<sup>rd</sup> 2011, in Classical Makedonia Palace, Thessaloniki, Greece.**

The principal aims of this event are to bring the CAE Community together with BETA CAE Systems S.A. and to promote an international exchange of the latest concepts, knowledge and development requirements on our flagship software products, ANSA & μETA. Technical papers will be presented outlining the latest advances in CAE strategy, methodology, techniques and applications related to our products. Participants will have the opportunity to be informed about the latest software trends, demonstrate their concepts and achievements and present new development requirements.

Following the success of our previous events and after the request of the majority of the participants, the duration of our 4th conference will be of three days. The closer technical communication with the software developers' team of our products, within the framework of a technical forum, features this three-day conference.

Further discussions, sessions, meetings and events will allow the interaction between participants and organizers. Senior executives of our company, the engineers from the development and services teams and our business agents from around the world will be glad to meet with customers and users, to discuss the applications, the existing functionality, latest enhancements and future development plans of our software products. We expect that this will be a unique opportunity for you to share your success and for us to share our vision.

The attire of the event is business casual.

The language of the event is English.

## Who Should Attend

The conference will be of interest to decision makers, strategy & methodology planners, simulation experts, applications users and researchers at the forefront of the CAE simulation for various disciplines, coming from OEMs and suppliers from a wide spectrum of industrial sectors, specially from, yet not limited to:

- automotive,
- motorsports,
- railway,
- aerospace,
- shipbuilding / offshore,
- power tools,
- electronics,
- energy,
- heavy machinery,
- biomedical / biomechanics,
- chemical processes,
- academic, etc.

All those who wish to communicate recent advances and future trends in the analyses technologies, methods and practices for solving the problems of the modern Industry, using our software products, are welcome to make the conference a success. Please, refer to the Call for Papers for details on papers contribution.

## Benefits of Attending

- Present your success stories and innovative ideas within a unique global forum.
- Meet, exchange ideas and collaborate with CAE experts from around the world.
- Keep up to date on the latest advancements in the field of CAE simulation with state-of-the-art software solutions.
- Interact with our software development teams and promote your requests to influence future software development.
- Enhance your relations with the technical support & services engineers of BETA CAE Systems and with its representatives of the worldwide sales & support network.
- Learn more about our co-operations with leading hardware and software companies.

## Topics of the Event

The technical forum and contributed presentations will demonstrate the current status and the future trends of ANSA & μETA applications in a spectrum of industrial sectors. A wide range of topics on various simulation application fields and disciplines will be covered, including:

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>➤ CAE strategy &amp; process planning,</li> <li>➤ Process automation,</li> <li>➤ Product and Simulation Data Management (PDM / SDM),</li> <li>➤ Durability,</li> <li>➤ Crash &amp; Rollover,</li> <li>➤ Occupant &amp; Pedestrian Safety,</li> <li>➤ Dynamics,</li> <li>➤ Noise, Vibration &amp; Harshness,</li> </ul> | <ul style="list-style-type: none"> <li>➤ Computational Fluid Dynamics,</li> <li>➤ Optimization,</li> <li>➤ Composite materials modelling,</li> <li>➤ Climate control,</li> <li>➤ Engine technology,</li> <li>➤ Heat transfer,</li> <li>➤ Simulation results assessment etc.</li> </ul> |
