

BETA CAE Systems hosted one more successful BEFORE REALITY Conference for the engineering simulation community

The 9th BEFORE REALITY Conference was held from June 14th to 16th, at the Science Congress Center in Munich, providing engineers with a platform to showcase their inspiring work, share innovative ideas or success stories, and demonstrate how cutting-edge engineering, coupled with the right tools and methodologies, can elevate product design to new heights.

Engineers from various industries joined the BETA CAE Systems team to exchange experiences, thoughts, and requirements, fostering a collaborative atmosphere among delegates.

With a focus on diverse disciplines and industries, the event featured 77 presentations and 38 demos that captivated the audience's attention.

Having the presentations organized according to subject relevance, attendees with similar interests had the opportunity to connect with one another and engage in fruitful discussions regarding the capabilities of BETA CAE Systems' software in their respective fields.

Eminent speakers from the industry shared their engineering journeys, filled with challenges, and showcased effective solutions utilizing the BETA CAE Systems software suite.

Moreover, the event featured presentations on the latest developments of SPDRM, KOMVOS, ANSA, EPILYSIS, META, and RETOMO, providing insights into future advancements. Demonstrations of the newest NEERE, DEEN, and ANSWERS were also integral parts of the agenda.

The technical gallery, arranged according to different application areas and disciplines, offered participants a unique opportunity to engage with support and development engineers, enabling them to discuss current practices and provide input for future developments.

A notable highlight of the conference was the social event, with an exciting but relaxed atmosphere for conversations and entertainment.

BETA CAE Systems expresses gratitude and extends congratulations to all participants for their valuable contributions to the event's success. They eagerly anticipate hosting attendees once again in the future during upcoming events.
